📇 profile summary

React and React Native Developer with 3+ months of experience in developing responsive web and mobile applications. Skilled in React.js, React Native, HTML5, CSS3, JavaScript (ES6+), Redux, and RESTful API integration. Proficient in Git for version control and comfortable working in agile teams. Seeking an entry-level role to contribute to innovative projects and advance my technical skills.

💼 Professional Experience

Your Automation Technology India   05/2024 – present | Chennai, India
React Native Developer ↗

- Developed an Android event management application using React Native, overseeing the entire project lifecycle from UI/UX design to deployment.
- Collaborated on designing intuitive and responsive user interfaces, ensuring a seamless user experience.
- Led the end-to-end development process, including implementing components, managing state with Redux, and ensuring efficient navigation and user interaction.
- Integrated RESTful APIs to enhance application functionality, enabling real-time data synchronization and communication with backend services.
- Conducted rigorous testing, debugging, and performance optimization to ensure the app's stability and efficiency across various devices.
- Utilized Git for version control, collaborating with cross-functional teams in an Agile environment.

🎖 Technical Skills

| React Native | HTML | JAVASCRIPT | CSS | PYTHON | SQL | GIT | React |

📁 Projects

**E-commerce Application with Tally Integration.**   08/2024 – present

- Collaborating in a two-person team to develop a comprehensive e-commerce platform using React. Leading the front-end development, focusing on creating a user-friendly interface for seamless order booking and management.
- Designed and implemented a dynamic admin panel that allows clients to manage pending orders, track order statuses, and generate detailed reports.
- Developed a delivery person application to streamline logistics, displaying pending orders with real-time location tracking for efficient delivery management.
- Integrated responsive design principles to ensure a consistent and intuitive user experience across devices.
🎓 Education

Bachelor of Computer Application   06/2017 – 04/2020 | Madurai, India
The American College ↗

🗂 Certificates

- Python with React development - Pyspider
- Python Programming - IIT Madras [GUVI] ↗

🧩 key Skills

Front-End Technologies: React.js, React Native, HTML5, CSS3, JavaScript (ES6+), Redux, React Navigation
APIs: REST, RESTful API Integration
Version Control: Git, GitHub
Design & Prototyping: UI/UX Design, Responsive Design, Figma
Testing & Debugging: Unit Testing, Debugging, Performance Optimization
State Management: Redux, Context API
Mobile Development: Android App Development, Cross-Platform Development
Collaboration Tools: Jira, Slack
Soft Skills: Communication, Problem Solving, Team Collaboration, Attention to Detail
